More information coming soon

The **United Nations Convention on the Rights of Persons with Disabilities (CRPD)** was adopted on December 13, 2006 at the United Nations Headquarters in New York. The CRPD is the only international treaty addressing human rights for persons with disabilities.

This year the ABILITY Event will celebrate the 15 year anniversary of the CRPD by hosting a series of international speakers discussing the impact of the CRPD locally, nationally, and globally. This **seven-series** event will be offered both virtually and in-person with the last session culminating in a symposium broadcast from Dubai at the World Expo on December 3rd.
